HOT AIR FURNACES

PETER MARTIN'S Patent Improved Hot Air Furnaces,

FOR PUBLIC AND PRIVATE USE.

For Wood or Coal.

THE ATTENTION OF THE PUBLIC is called to the above Furnaces, as they combine ventilating with heating qualities.

The inventor has, after years of experiments, sue-ceeded in perfecting what he claims to be the best Furnace now in use. Among its many advantages over the ordinary Furnaces, are:

The small amount of Fuel required to keep it in operation. operation.

Keeping the rooms constantly supplied with pure fresh air, drawn from Nature's inexhaustible stoo treel air, drawn from Nature's inexhaustable stock out of doors.
Large Air Chambers, avoiding the confinement of heat in heated walls and hot metal chambers.
Improved Water Chambers, which keep up a steady supply of moisture, which overcomes the great objection to ordinary Hot Air Furnaces.
The castings are heavy, and strongly holted together, guaranteeing durability under any degree of heat.

LIQUID CURE WARRANTED

IF DIRECTIONS ARE FOLLOWED. CALL FOR A CIRCULAR DESCRIBING ALL SYMPTOMS.

The symptoms of Catarrh as they generally appear are at first very slight. Persons find they have a celd, that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition, the nose may be dry, or a slight discharge, thin an acrid, afterwards becoming thick and adhesive. As the discass becomes chronic, the discharges are increased in quantity and changed in quality; they are now thick and heavy, and are hawked or coughed off. The secretions are offensive, causing a bad breath; the voice is thick and nasal; the eyes are weak; the sense of the smell is lessened or destroyed; deafness frequently takes place.—Another common and important symptom of Catarrh is, that the person is obliged to clear his threat in the morning of a thick or slimy mucus, which has fallen down from the head during the night. When this lakes place the person may be sure that his disease is on its way to the lungs, and should lose no time in arrestine it.

The above are but a few of the many Catarrh symptoms. SYMPTOMS: symptoms.

FREEPORT, Oct 21, 1863. DR. D. H. SEELYE: DEAR SIR—In reply to your notice of the 18th inst., I would say that I was severely affli ted with Catarrh for years, when I became acquainted with you and bought two bottles of your Liquid Catarrh Remedy. Before I had used one bottle I was sensibly improved, and before the second bottle was finished, was completely cured. I can recommend the medicine to all afflicted with Catarrh.

Respectfully Yours,

Par value of shares, \$100. Lands located on the Little Kanawha and Elk Rivers, in the counties of Gilmer and Braxton, in the very heart of the oil regions of West Virginia.

Professor Richardson reports: "Your property is the very centre of the West Virginia oil regions. It has numerous oil and gas springs along the banks of

its streams, one of wnich vies with the famous Burning Spring' itself." Professor Shepherd, of New Haven, Conn., re ports: "I consider it eminently oil-producing land. The oil-bearing shales underlie it extensively, and the long lines of carburetted hydrogen, or illuminating gas springs, some of which I saw burning, as well as the appearance of oil itself on the surface

of the tract, fully confirms me in this belief.
There can be no doubt that along your creeks and tributaries there is a large extent of valuable oilproducing territory. The prodigious amount of bituminous and cannel coal, iron ore, limestone and fire clays embodied in the high hills on your property, the tops and slopes of which are covered with an extraordinery growth of white oak and other heavy timbers, add immensely to its value." These views are fully indersed by the reports of

the most practical and experienced men from the oil districts of both Pennsylvania and Virginia. The Company consider themselves fortunate in having secured the services of Mr. Blackwell, a practical civil engineer, for the general superintendency, so well known as the late Chief Engineer and Superintendent of the "Commissioners of Washington Heights," New York City.

Arrangements are in rapid progress for the immediate development of the property, on a scale commeneurate with its value and extent.
